CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Display Sponsored By Glades Towns

Mrs. C. M. (Udene) Todd was appointed last weekend by the board of directors of the Pahokee Chamber of Commerce as the chamber's executive secretary, replacing Mrs. Sally Butler who recently resigned.

One of Mrs. Todd's first tasks upon assuming her duties in the office on Monday was to make arrangements for Pahokee's display in the Glades booth at the Palm Beach County Fair, Jan. 23-30. The booth is being jointly sponsored by Pahokee, Belle Glade and South Bay and will occupy spaces four and five in the exhibition building. The displays will include not only a wide variety of winter vegetables grown in the rich mucklands of the Glades but also commercial, industrial and trade exhibits of the three communities.

Mrs. Todd is asking for volunteers to assist with the manning of the Pahokee display in the Glades booth at the Fair, which will be open from 10 a. m. to 10 p. m. on some days and from 2 p. m. to 10 p. m. on other days. Mrs. Don Hillier, chamber president, and Mrs. Todd will be in charge of the display on the opening day, Friday, Jan. 23.

Committee Named To Study Taxes

Apelgren of Pahokee are among the representative citizens appointed to the committee, the members of which were selected for their knowledge of the subject, their contact with the people of the various areas and to cover a wide range of experience, according to President Jones.

Residents of the county will be asked to submit their information, ideas and suggestions, in writing, to members of the committee, directors of the Resources Development Board in their community, or directly to the headquarters of the Resources Development Board, in their community or directly to the headquarters of the Resources Development Board, Box 107, West Palm Beach.

Fire Department Gives Prompt Action

Prompt action on the part of the Pahokee Fire Department on Saturday, one of the coldest days so far this season, kept two fire outbreaks in the Pahokee area from spreading very far.

The first fire occurred in the morning at the PHA Everglades Farm Labor Supply Center Camp south of town when a defective oil stove set fire to a two-unit dwelling house and the flames destroyed the room where the stove was located before they were put out.

The second fire call was around 2 p. m. when flames of unknown origin broke out in the bedroom of the home of Mrs. Alma Farrow on Banyan Avenue. Damage was confined mostly to the bedroom where the fire originated, according to Fire Chief Marvin Levins.

Forward Alvy Early was high scoring man for Pahokee with 21 points.

McArthur's B team defeated the Blue Devil B's, 46-29. Last Friday night Howard's men were defeated by the Seacrest Seahawks in the local gym, 33-51. At the present time the Blue Devils have a 500 over-all rating, winning five games and losing five.

Funeral Services For Donald Tarr

Funeral services for Donald Kenneth Tarr, 29, of Pahokee will be held in the Episcopal Church of Holy Nativity at Pahokee this Friday morning at 11 a. m., with Rev. Robert M. Huffman, vicar, officiating.

There was no apparent mechanical defect that might have caused the car to leave the highway, according to Trooper H. S. Peterson.

A resident of Pahokee for about seven years, Mr. Tarr was employed as bookkeeper for Stanley Chevrolet, Inc. He was a member of the Pahokee Junior Chamber of Commerce, Pahokee BPOE Lodge No. 1638 and the Episcopal Church.

Protect Yourself On The Highway

TALLAHASSEE — The Florida Highway Patrol declared today that highway slaughter will be minimized when the driver realizes that "nothing protects a man like himself."

That statement came from veteran Patrol Comdr. H. N. Kirkman as the new year raced into high gear as did the continued loss of life and property on the highways.

"For instance, it isn't winter that causes an increasing number of crashes and the resulting deaths, declared Kirkman, "but the failure of man to adjust to a thing over which he has no control."

"The same goes in so many cases. It goes where a driver continues to breeze down the highway at the local limit of the law when it's raining. He knows full well that if he has to hit the brake he might skid right into a casket. Still he takes the dare."

"The same goes when a person, used to driving from a given point in daylight hours during the summer with one eye on the road and the other eye peeled for the law. He knows that early dark hours increase his chances of hitting something or getting hit. Yet on he goes, until fate calls a halt."

The commander said there is no end to the number of instances in which the driver could have saved himself, had he adjusted his action to include protection against himself.

"Getting yourself ready for driving—any time of the year, means more than safety checks in the summer or adding anti-freeze to the radiator in the winter," Kirkman said. "It means the will to guard against your own self and agree with your better judgment, that right will always outdistance wrong."

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

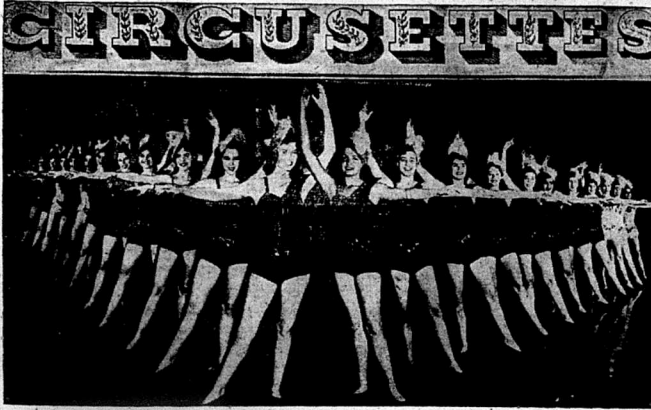

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

Belle Glade To Have FSU Circus

Circus stars are made, not born. This will be seen in spectacular style in Belle Glade on Feb. 21st, when the Rotary Club presents the nationally-famous "Flying High," all-student circus of Florida State University in Tallahassee.

On hand will be a traveling troupe of 75 students to present a two hour show featuring 20 big acts.

Although the circus roster is officially limited to 60 students who can enroll once in their college careers for one hour maximum credit in Course 119, another 150 boys and girls train for the circus regularly on their own time two or three days a week.

Most of the students as freshmen—girls must wait until the second half of their sophomore year they can receive credit—didn't know a handstand from a forward somersault when they started.

Directing hand and heart of the circus is Coach Jack Haskin, with

his assistant, Jim DeCosmo, of the FSU physical education department. From an annual crop of willing but inexperienced boys and girls, Coaches Haskin and DeCosmo annually present what is considered by many as the finest university show in the world.

Candidates for "circus" are given simple tests by their coaches. Some are in acrobatics, then a quick workout on the ladder and trapeze. The girls may get an added simple dance routine check. All of them are checked on climbing for height which indicates those best suited for stage acts only.

Everyone starts by doing the same things. First they learn simple tricks, gradually they work into the more complicated ones, the specialties developing out of the student's own abilities.

Girls, and there are more girls than boys, who take "circus" because of the number of dancers used; fit in whether they weigh much or little and are tall or short—the taller ones are placed in the web routine. The lighter ones, under 110 pounds, may go into the high flying acts.

Boys to small for the football team or other varsity sports frequently end up stars in the circus where timing counts as much as strength.

Everyone performs under safety-first conditions at all times. A four inch carpet of sawdust cushions the ground in the practice area on campus. Safety lines and belts are used in the high acts, and nets are up when anyone is performing more than 10 feet off the ground.

Five WSCS Circles Have Meeting

A program on "Bridges Across the Centuries" was presented at each of the meetings of the five circles of the Pahokee Methodist Woman's Society of Christian Service held at homes of members Monday. Copies of the booklet, "Insight Into Prayer," compiled and written by Mrs. Robert C. Hatton, WSCS spiritual life chairman, were distributed to circle members at each meeting.

Mrs. C. A. Major was in charge of the program presentation at the meeting of the Mabel Simonson Circle at the home of Mrs. L. B. Wilson. Mrs. M. P. Holman, who was in charge of the devotionals, was named spiritual life chairman of the circle to fill the vacancy left by the resignation of Mrs. C. M. Todd.

Mrs. Leo Wroten and Mrs. Leo Maxwell were hostesses to members of the Mirian Circle at the meeting at Mrs. Wroten's home with Mrs. James Moore, president, presiding.

The Gertrude Shirley Circle met at the home of Mrs. Milton Salvatore with Mrs. Ruth Meredith, chairman, presiding and Mrs. Richard C. Lane assisting Mrs. Salvatore as co-hostess.

Mrs. Ralph Stanley, chairman, presided at the meeting of the Margery Lair Circle which was held at the home of Mrs. John Padgett, with Mrs. Padgett, hostess.

Mrs. F. B. Simonson was hostess to members of the Mary-Martha Circle which met at her home on Boom Point Road with Mrs. Jess M. Elliott, chairman, presiding.

As the practices progress top performers are picked to staff the traveling troupes. Play dates are scheduled for weekends and holidays so that school work will not be interrupted. Performers must carry a "C" average before they can travel.

About 50 students go out on the chaperoned tours in their own brightly painted circus bus. The result is circus with a capital 'C' and all stops removed.

The FSU "Flying High" Circus has been featured in national magazines and movies and on two national T. V. shows. The color, the thrills, the music, the beauty of the FSU circus performances all add up to two hours of top entertainment and visual proof to the adage that "circus stars are made, not born."

Women Of Area To Make Bandages

Women of the Pahokee-Canal Point area will meet at the Pahokee Woman's Club building Friday, Jan. 23, from 10 a. m. to 3 p. m. for a work day under the sponsorship of the Woman's Club to make bandage dressings for local cancer patients, according to Mrs. Hundley, area director for the American Cancer Society. The work will be under the direction of Mrs. Harry Board of Riviera Beach, AC representative. All women who can be urged to participate in this public service project. Those who are able to work for the entire period are asked to bring sandwiches for the noon luncheon. Drinks will be furnished.

Highlights of the month include the Florida State Fair at Tampa, Feb. 3-14 and the Gasparilla Pirate Festival, when invaders "capture" the city for six days, Feb. 9 through Feb. 14.

Industrial Board Will Study Laws

TALLAHASSEE—The Citizen's Advisory Council of the Florida Industrial Commission will meet in Tallahassee January 26 to formulate its recommendations for legislation in regard to programs administered by the agency.

On the following day, January 27, the Industrial Commission will hold its pre-legislative public hearing for suggestions on changes in laws it administers.

The Advisory Council is made up of five public members and seven members representing employer and seven, representing employee viewpoints in the State. An employer member, J. A. Smith of Panama City, is now the Council chairman.

Commission Chairman James T. Vocelle said the Commission at the public hearing will publicly discuss proposals of the Advisory Council and consider any other proposals made on laws the agency administers. These cover unemployment insurance, Workmen's Compensation, State Employment Service, apprenticeship, prevailing wage, child labor, private employment agency, and elevator inspection.

Christian Science Group Of Canal Point

The vital importance of having a strong, spiritual foundation will be stressed at Christian Science services Sunday.
Keynoting the Lesson-Sermon entitled "Truth" is the Golden Text from Deuteronomy (32:3, 4): "Ascribe ye greatness unto our God. He is the Rock, his work is perfect: for all his ways are judgment: a God of truth and without iniquity, just and right is he."
From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read the following (481:8-9): "Through spiritual sense only, man comprehends and loves Deity."
Scriptural selections to be read include the following (Psalms 18:30, 31): "As for God, his way is perfect: the word of the Lord is tried; he is a buckler to all those that trust in him. For who is God save the Lord? or who is a rock save our God?"

Coral Gables To Have Sun Dance Float

The City of Coral Gables' Orange Bowl Float was entered this week in the parade April 20, of the Semi-annual Sun Dance celebration, sponsored for April 20-26, Norman B. Hart, Jr., general chairman of the event, said Wednesday. The Sun Dance celebration will commemorate the 50th Anniversary of the organization of Palm Beach County.
A large number of cities and organizations are making plans to enter colorful floats, and many bands are expected to march in the parade.
Col. Robert W. Milburn, police chief of West Palm Beach, has assumed the chairmanship of the parade committee, Hart said. Thousands of people from all over Florida are expected to come here to view the parade, which will surpass all parades ever staged here, he added.
More than 60 committees have been named to arrange the numerous features of the week-long festive celebration.

Garden Club Has Arbor Day Program

The Pahokee Garden Club presented its annual Arbor Day program at an outdoor meeting in Pioneer Park Tuesday, with Mrs. Robert B. Simonson in charge of program arrangements.

Mrs. Claude L. Shirley and Mrs. Ruth Meredith described the various flowering trees that are growing in Pahokee's public parks and civic building grounds. Potted and flowers of the trees were distributed to members for identification.

Essays on "Conservation" were read by three Canal Point students, Betty Johnson, who won first prize, and by Sue Sheridan and Jeanette Harrington, who tied for second place.

Mrs. Robert Fisher, Mrs. William Johnson, Mrs. Carlton Suggs and Mrs. Robert Henderson were welcomed as new members of the club.

Mrs. Frank Friend, roadside beautification chairman, reported the Florida Power and Light Company is moving its powerline poles to the north side of Bacom Point Road as the lines have been interfering with the growth of the continuous row of royal palm trees which border the south side of the road. She announced that the eight palms that have died in the water-front beautification project at Pahokee Harbor will be replaced.

Mrs. Don Hillier, past president

of the club and currently president, of the Chamber of Commerce, asked for volunteers to assist with the decoration and manning of Pahokee's display in the Glades booth at the Palm Beach County Fair, Jan. 23-31. The booth is being sponsored jointly by Pahokee, Belle Glade and South Bay.

Members who wish to enroll in the Garden Club Short Course at the University of Miami, Jan. 28-30, were asked to contact Mrs. J. T. Platt, club president.

a castle in the air costs nothing
—but you can't live in it!

Make your dream house come true! It's easy
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about; nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.05 cash. In 9 years, 8 months, you'll have \$7,217.39!

So don't let down payments get you down. Meet your needs for ready cash the way more than 3 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest at current income, ask your bank about Series 'H' Bonds, which pay dividends monthly by Treasury check.

Choose your own savings goal

	If you want approximately

This chart shows only a few limited examples of savings goals and is not intended to replace the Payroll Savings Plan. For more information, contact your pay office or the U.S. Savings Bonds Office, Department of the Treasury, Washington, D.C. 20548.

finest western and English riders in this section of the state. Micro Midget auto races will be staged in front of the Speedway grandstand Saturday night on a tenth-mile track, starting at 7:30 o'clock. The show will include three heat races, a consolation and semi-final of 10 laps each and a 25-lap main event.

Sunday afternoon NASCAR sanctioned stock car races will start with time trials immediately after the gates open at 1 o'clock and a four-race program for both amateurs and professionals. Former national champions Red Farmer, Rod Perry, Bobby Johns, Bill Ludwig and Sam DiRusso will lead the pros who line up for the 40-lap County Fair Championship.

Volunteer firemen from all sections of the county will stage their second annual tournament Wednesday night, January 28 with ladder climbing contests, oil fire competition and their own version of "water polo." In the polo game, teams armed with high pressure hoses try to drive an oil drum to either end of a tight wire. With a new wire rig this year Chief John T. Mize, chairman of the tournament, predicts some exciting battles between the volunteer teams.

Exhibits will be housed in four huge permanent buildings, which include two new ones just completed, plus acres of canvas in 14 big tents. The national District Guernsey show will be one of the highlights of the extensive agricultural exposition which will include 4-H registered beef and dairy

cattle, vegetables, poultry, rabbits, turnips and ornamentals. Girls will compete for honors in 4-H club and home demonstration cooking and dressmaking events, and in another big show, amateur arts and crafts producers of the county will exhibit the winning entries in the first big annual competition staged in the county. More than 400 entries were judged to provide the entries for the County Fair exhibit under the direction of Mrs. Jackie Waeack.

Special community exhibits will be shown by the chambers of commerce of West Palm Beach, Jupiter, Boynton Beach, Lake Worth and a combination of Pahokee, Belle Glade, and South Bay.

All branches of the armed forces will display their latest weapons, with the Air Force exhibit featuring guided missiles, topped by a 17-ton, full sized Thor rocket. The Army Pentomic show will be uncovered for the first time here after a preview in the Pentagon, and will show the Army's ability to cope with small conflicts as well as all-out atomic war, and forecasts weapons of the future, projected to 1975. Home show, electrical, industrial, model home, sports show, horticultural displays, elaborate school exhibits will be featured in more than a mile of exposition space.

Mrs. Philo B. Williamson is a patient at Good Samaritan Hospital, West Palm Beach, entering Monday.

Mrs. Lillian Butler has returned to Jacksonville after a visit with relatives in Pahokee.

NO OTHER PICKUP ...RIDES LIKE A '59 FORD

You get the smoothest ride of any half-ton pickup, thanks to Ford's heavy-duty, two-stage rear springs and long, tapered leaf front springs. Scientific Impact-O-Graph tests prove you get the easiest ride!

27 Ford pickups for '59!
...choice of 3 wheelbases, 3 body styles,
4 body sizes and 5 Short Stroke engines.

...HAULS LIKE A '59 FORD

Big Styleside box gives you 56 cubic feet of loadspace on a 110-inch wheelbase or 70 cubic feet with a 118-inch wheelbase. Both bodies offer the structural strength you need for heavy hauls. And you've got Ford Short Stroke power to haul without huffing or puffing!

'59 Ford Styleside is roomy—and rugged! Wrap-around rear corners with rigid box-girder type construction strengthen both body and tailgate.

...SAVES LIKE A '59 FORD

To the only Short Stroke Six in pickups today, Ford now adds a new economy carburetor. Result: the greatest gas-saving combination on the road—and it's yours at no extra cost! And a full range of transmissions permits you to choose the one for your job.

And a Ford keeps on saving! Maintenance is low, trade-in value is traditionally high. And insurance studies prove that Ford trucks last longer!

Go FORD-WARD for savings.
